The Waterlux® Drinking Fountain comes with a bubbler and optional glass filler and is a very sturdy self-contained water cooler designed specifically for the workplace.

These water coolers represent the most modern design available in stainless steel cabinets. Offering arc-formed front panels for superior appearance, they provide a high draw-off capacity and are engineered to the highest levels of quality and dependability.

Your Waterlux® Drinking Fountain includes:

- Stainless steel cabinet (#304 stainless steel 0.8mm thick)
- Stainless steel basin
- Stainless steel frame and base
- Stainless steel reservoir (3 litre capacity)
- Cross Flow ventilation
- Adjustable bubbler
- Adjustable levelling feet
- Power indicator light
- Ample provision for internal filtration
- The water lines connect straight to Australian Standard fittings
- 1 year comprehensive warranty
- Optional glass filler

DRINKING FOUNTAIN (STAINLESS STEEL)

Dimensions:

height 1100mm (Bubbler only)
width 430mm x depth 300mm
weight 29kg

Water connections:

Mains pressure inlet is $\frac{1}{2}$ " female BSP fitting. Drain outlet is a 40mm P Trap with 32mm reducer. The water supply and drain connections are factory supplied.

Voltage:

240V, 50Hz single phase. A 1.8 metre house cable and 3 pin plug is supplied.

Cooling system (Chilling Tank):

Combination tube tank type. Tank is stainless steel and can hold up to 3 litres with copper coils bonded around the outside, which offers maximum cooling efficiency.

Double wall separation is provided between refrigerant and drinking water and the evaporator tank is fully insulated.

Thermostat:

Factory pre-set. It is adjustable but tamperproof. A remote sensing bulb provides accurate temperature control of cold water.

Warranty:

1 year warranty extended to 5 years if water filters connected and recommended servicing carried out by The Water People.

Guide to cooling capacities of 10°C

Room Temp	Water Temp	Litres per Hour
21°	15°	22
27°	21°	19
27°	27°	14
27°	32°	11
32°	21°	18
32°	27°	13
32°	32°	10
